Education

University of Minnesota Twin Cities, Minneapolis, MN 2024 – Present (May 2028)
College of Science and Engineering & College of Liberal Arts
Undergraduate Student Majoring in B.S. Data Science, B.S. Statistical Science
GPA: 3.8/4.0 (CSE Deans List)

Skills

Programming Languages: SQL (PostgreSQL), Python (Pandas, Numpy), R, Java, C
Data & Geospatial: Pandas, NumPy, Jupyter Notebook, Google Sheets and Colab, GEE, ArcGIS Pro
Tools: Git, VS Code, Figma, Postman
ML & AI: PyTorch, BLIP-2, LoRA, Hugging Face, Fine-tuning, AWS Bedrock

Experience

Data Science & Research Analyst — [Agricultural Robotics Lab](#) September 2025 – Present
University of Minnesota, Twin Cities, Minneapolis, MN

- Co-engineered an end-to-end multimodal VLM pipeline (BLIP-2, Q-Former, Qwen LLM) for automated plant disease diagnosis, achieving 85.3% classification accuracy and macro F1 of 0.861 across four disease classes evaluated via BLEU, ROUGE, and BARTScore.
- Curated and cleaned complex raw image and text greenhouse datasets into structured multimodal HuggingFace datasets; conducted exploratory statistical analysis and quantitative model benchmarking (evaluating precision, macro F1, and error distributions across 3 target classes).
- Synthesized analytical findings into structured reporting presented at two university symposia.

WeatherRAG — Automated Text & Forecast Analytics Pipeline June – August 2026
[GitHub repository](#)

- Engineered an automated data validation RAG-based system to evaluate output reliability; developed a statistical scoring metric (improving consistency from 1.0/5 to 3.7/5) and a reference-free anomaly detection script to flag unverified data points.
- Built a reference-free groundedness checker that scores every generated answer against its retrieved source text on a 1-5 scale, flagging unsupported claims automatically on any uploaded document with zero hand-labeled ground truth required, improving the scalability of the system itself.

Peer Tutor — Tutoring & Academic Success Center August 2026 – Present
University of Minnesota, Twin Cities, Minneapolis, MN

- Translated complex statistical and math concepts (probability, regression, hypothesis testing) and Python data workflows into intuitive explanations for 25+ undergraduate students.

Accomplishments

Undergraduate Research Symposia — Research Poster Presenter January – May 2026
Undergraduate Research Opportunities Program (UROP)

O1 Summit Startup Hackathon Healthcare — 3rd place out of 50+ teams April 18 – 19th 2026
[Origin House](#)

Merit Scholarships: Global Excellence Scholarship, Jawaid & Helen Elahi Scholarship 2024 – 2028
